

9th October 2015

Dear Parents and Carers,

Apple Week

During the last week of this half-term (beginning Monday 19th October) we will be celebrating Mill Water's orchard by holding our first 'Apple Week'. Pupils will be able to help pick the apples in the orchard, and we will be using different recipes to make and bake all sorts of apple-themed foods.

We will also be working with Bicton College to press some of the apples and make our own Mill Water apple juice, and pupils will be able to take this home to enjoy and share with their families and friends.

If you would like your son or daughter to take some apple juice home with them, please can you send in one or two plastic bottles at the beginning of the week (between 500ml and 1litre) – these will then be filled with apple juice and sent back to you later in the week.

Please let me know if you have any questions.

Yours sincerely,

Sarah Pickering
Headteacher
