

INFORMATION SESSIONS FOR PARENTS, TEACHING STAFF

IN THE EXMOUTH ACADEMIC LEARNING COMMUNITY

(All other interested parties very welcome.)

Topic: ADHD

Are you constantly telling your child to slow down, stop touching things or pay attention? Does the teacher say your child daydreams? Children with ADHD can have trouble with attention, focus, overactivity and impulse control.
Has anyone else in your family been diagnosed with ADHD ? Does your child blurt out inappropriate things and interrupt people?
Does your child seem to move nonstop—even when sitting down? Does your child frequently make careless mistakes?
Does your child leave chores or homework unfinished because she gets distracted by something else?
Do you feel like your child doesn't "get" or understand things in the way you'd expect?
Does your child show impatience with other kids and have trouble waiting her turn?
Does your child seem to lose things more often than other kids?
Does your child take risks or do unsafe things without thinking about the consequences?
Is your child often 'spacey' or 'tuned out'? Does he 'go off like a bottle of pop'? (hence this border!)
Suggestions for help with classroom strategies
Improvement in behaviour will help attention, focus and concentration
Comments from how it feels from the child's point of view
Theory and practical suggestions for parents and teachers
Question time
