## WORLD READ ALOUD DAY!

### February 3, 2021

[www.litworld.org](http://www.litworld.org)

Whether in school, out of school, at home or online, there have been so many fantastic activities and stories shared for World Read Aloud Day this week.

A special mention for Kingslea in Class 2 for working incredibly hard at joining in telling the story of the Gruffalo, remembering all the repeated refrains and using fantastic expression, and being 'teacher Kingslea' telling Jess the story. He remembered all the characters and the order of events, with only a few pictures to prompt him. Kingslea did it over Zoom which is even trickier!

Class 6 have started a trend this week to improve communication in the pool by working with the Speech and Language Team to create and use 'communication floats'. Other classes have been using them as well, and with some waterproof glue, they're durable too!

Class 10 boys have been getting creative at home again. This time they've made a very impressive Lego car and Slinky from Toy Story!

Mum and school yoga teacher Charlie is going the extra mile for Mill Water after a fundraiser to help buy son Tristan a new specialist trike exceeded its target. Charlie is also the new Chair of the PTFA and she has kindly pledged to donate all extra money raised from her Crowdfunder campaign towards new bike equipment for the school. Her target was exceeded within 48 hours of launching her appeal. She says that Tristan, in Class 4, is "delighted" that his school friends are also going to benefit from the fundraising. Charlie plans to deliver free online yoga sessions as a thank you to people for their donations. To find out more and to make a donation (before the page is closed on February 24th), visit: <https://www.crowdfunder.co.uk/new-trike-for-tristan#start>
